# HabitQuest

By: Damien, Percy, and Joseph

# The Problem

Too many people struggle with their mental wellbeing. Not being able to build healthy habits or not being able break bad habits.

# The Solution

We built HabitQuest, HabitQuest is a habit tracker with a fun spin on it to make people addicted to fixing their bad habits or to help make good habits.

# Inspiration

We were Inspired by Duolingo and other people and teams such as the amazing committee who hosted this hackathon(Hshack) when they were presenting the opening ceremony.
